

Silchester Common Volunteers

Conserving the Common

Silchester Common is a Site of Special Scientific interest, but it is also a tremendous source of enjoyment for all the local community. Without careful management the common would revert back to scrubland and this fantastic amenity would be lost to future generations. Silchester Common needs **your support** today.

- Working Parties are held monthly, Saturday mornings throughout the winter months
- Work involves gorse and birch clearance, bonfires, bridge building and repairs
- A fun, sociable and valuable way to undertake some light exercise
- Come and meet new people and make a difference to the environment
- Learn more about the Common, its flora and fauna
